## Dangerous Goods Transport Costs

Due to recent cost increases by transport companies for the transport of Dangerous Goods (DG's), Science Supply Australia has had to review its delivery charges.

The DG Surcharge will be increasing from \$10 + GST to \$20 + GST but only for orders containing Dangerous Goods.

In an effort to offset the increased costs to our customers, SSA has decided not to increase the standard delivery charges so they will remain the same as they have for the past 6 years.

Please note, customers located in Victoria will not be impacted at this stage as we have not had any DG cost increases from the transport companies we use within those areas.

The increased cost will apply for deliveries outside of Victoria to all areas of NSW, QLD, SA, WA & Tasmania.

This increase will take effect from January 1<sup>st</sup>, 2018.

On large volume or large value orders, the delivery charges will still be calculated separately as we are happy to absorb more of the costs involved into those type of orders to help our customers reduce costs.

Please don't hesitate to contact us via email – [sales@ssapl.com.au](mailto:sales@ssapl.com.au) – or via phone – 03 9873 2588 – if you have any queries or concerns.

Yours sincerely,

Managing Director
